

## FLUIDCLEAN

### DESCRIPTION

Fluidclean is a machine tool cleaner and sterilising fluid. It is effective at low concentrations attacking both bacterial and fungal contaminants. It is suitable for individual machine tools and larger centralised systems providing excellent corrosion protection during the cleaning process. The cleaner has good anticorrosion properties suitable for use in all machine tools.

### APPLICATION

Cleaning and sterilising industrial machine tools and coolant systems. The product should be circulated for 24 hours prior to draining.

### COMPATIBILITY

Suitable for a wide variety of water qualities  
With hardness values typically between 50 and 500 ppm

### CONCENTRATIONS

Standard Cleaning	1-2%
Heavy Duty	2-3%

### TYPICAL DATA

#### Concentrate

Appearance	Green Liquid
Specific Gravity	1.05
pH at 3%	10.0

### STORAGE

The product should be stored under cover and protected from extreme temperatures (above 0°C and below 40°C). Avoid water collecting in the rim of upturned barrels.

### SHELF LIFE

Fluidclean has a shelf life of six months from the date of supply.

**MIXING** . Add directly to the coolant in the machine to be treated at the required dilution rate .
